PROFESSIONAL SUMMARY

Detail-oriented Flutter developer experienced in flutter & dart, state management (BLoc), clean architecture etc. I joined Xenith-tech Pvt Ltd as an intern in mid-2025, after successful completion of internship, I Worked on the project called “**Booxall**”, a futsal booking app, where I gained hands-on experience in App development. Prior to this, I have also made projects in node.js, react & Django which I have attached below. I also have teaching (Computer, Mathematics, and Science) and marketing experience which strengthened my communication and problem-solving skills.

EXPERIENCE

06/2025 – Present

Xenith Tech Pvt Ltd, Flutter Developer

Worked as a Flutter Developer at Xenith Tech, collaborating with team to build and maintain the ‘Booxall’ futsal booking app, implementing UI/ UX designs, integrating APIs, and ensuring smooth cross-platform performance.

Stock Trading, Trader
Nepse.

**Milestone Eng. Bor. school, Mithila institute
of Technology, Teacher, Computer, math**

PROJECTS

Flutter Tasks, ToDo app in Flutter

<https://github.com/nitishdotdot/FlutterTasks>

Django_Taapman, Weather App in Django

https://github.com/nitishdotdot/django_taapman

React Daily Task, ToDo App in React

<https://github.com/nitishdotdot/React-DailyTask>

Snake, Game in python

https://github.com/nitishdotdot/veg_snake

Electronic Nose, College project (Final year)

sensor-integrated robotic system using PIC Microcontroller for real-time detection of gases in atmosphere

Electronic Diary, College Project (third year)

Developed a user-friendly interface for Recording and displaying criminal data using **WIPRO-UTLP kit**

TECHNICAL SKILLS

- Proficient in **Dart**, including asynchronous programming, Futures and error handling.
- Proficient in **Flutter**, including widgets, layouts, navigation, forms, responsive UI, and application development.
- Hands-on experience with **BLoC** for scalable and maintainable state management.
- Experience designing and implementing clean, responsive, and user-friendly interfaces in Flutter.
